**H**ello ladies! Well, I thought they called Chicago "The Windy City"! What a windy spring we've had! Fortunately, the weather has been gorgeous. Summer is officially here and we're well into our season and vacation times. Bill and I spent a couple weeks at Topaz Lake jet skiing and playing with great friends. Neva is getting very confident on the jet ski!!

We really want to hear from all of you. Be sure to send us pictures of your vacation destinations so we can experience your fabulous get-aways too! See you on the course,

*Kelly King, President*

## Dear Patti *Patti Parker's Monthly Rules Advice Column*

Dear Patti, I hit my ball into the water (so sad!). The water was parallel to and alongside the direction of my play. What are my options to get myself out of water trouble?

Signed, Miss Directed

Dear Miss Directed, well lucky you, you have three options to get yourself out of water trouble, although each one has a one-stroke penalty: (1) Stroke and distance relief based on where the previous stroke was played. (2) Back on the line relief, but that will probably keep you within the penalty area. (3) Lateral relief (red penalty only). The reference point (black X on picture to the right) is where the ball entered the penalty. Lateral relief is two club lengths from where the ball entered the penalty area/water. If you can, it's best to avoid the water!
